

Passion Project Proposal: **The Color of Matter**

Type of Project

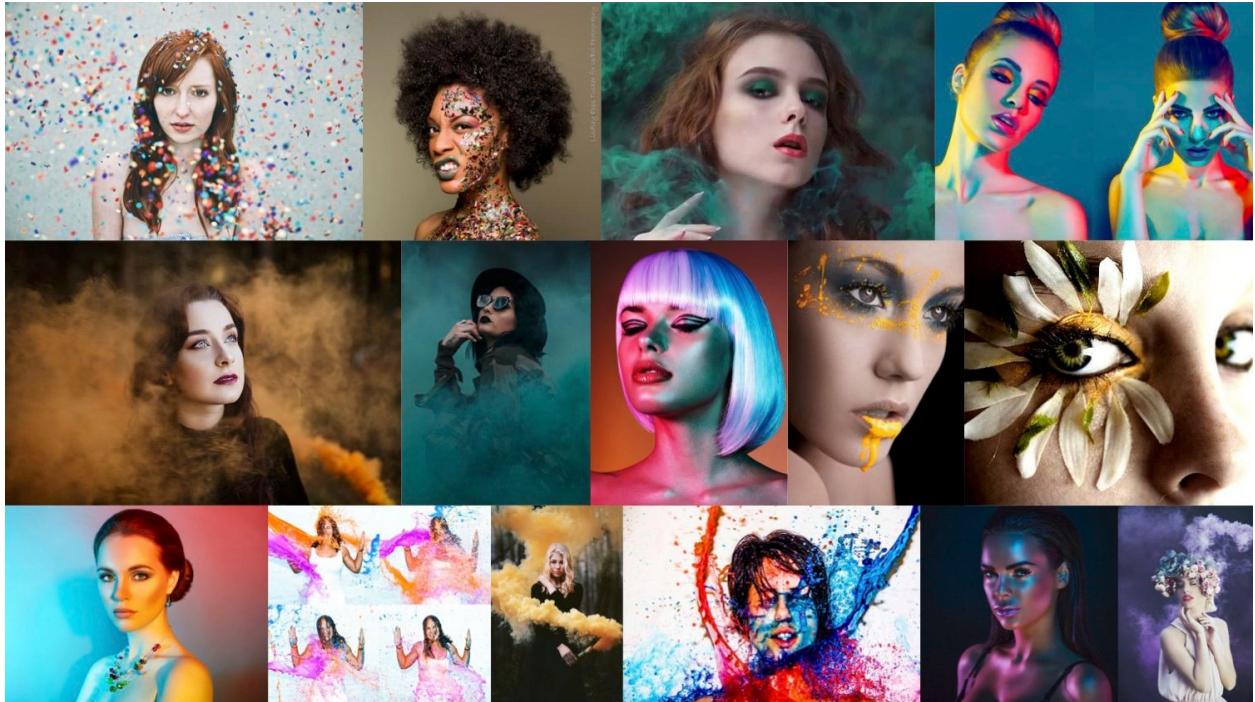

Portrait photo series

Project Idea

I am going to take a series of photos highlighting the beauty of color, light, and different forms of matter (gas, liquid, solid)

Inspiration

ALSO SEE TURNED IN CONCEPT BOARD

What tutorials or articles are you using to learn your new skills?

- <https://digital-photography-school.com/adding-smoke-to-an-image-in-photoshop-in-6-easy-steps/>
- <https://fstoppers.com/studio/shooting-color-gels-2723>

Objectives

- Learn to use props to enhance photos
- Learn how to adjust camera settings to different environments

Scope

First step is to do the liquid photoshoot, during which I will have assistants throw a paint-water mix on the subject. Next, the gas shoot, during which I will have the subject hold a colored smoke stick and pose. Last is the solid shoot, during which I will have assistants throw confetti on the subject.

Project Timeframe

| Date | What do you plan on getting done? | What did you get done? |
